

The Senseless Killing Begins

Today, our BC government reopens the senseless slaughter of bears in the Great Bear Rainforest.

Even in so-called “parks” and “protected” areas, our threatened grizzly bears can be hunted down for a trophy on someone’s wall.

The fabled Spirit bear featured so prominently in the Olympic opening ceremony will be at risk too because the gene that turns it white is present in many black bears—bears that can be sport killed in 98% of their range.

The trophy hunt continues to damage BC’s reputation and it undermines economic opportunities for rural communities who have chosen bear viewing over bear killing.

It is time to add your name to the nearly 80% of British Columbians, including a majority of BC hunters, who oppose the trophy hunt.*

Please join us in asking the Premier of BC to end the trophy hunt.

Send a message now!

Free Text: “NOTROPHYHUNT” and your reason why to 21-21-21. Your message will be forwarded immediately to the Premier’s Office.
